JERR-DAN TO EXHIBIT ITS BEST-IN-CLASS CARRIER LINEUP WITH HEAVY DUTY JD10XLP CARRIER AT 2019 FLORIDA TOW SHOW

Carrier features lighter weight, higher performing industrial bed

Hagerstown, MD (February 20, 2019) – Jerr-Dan Corporation, an Oshkosh Corporation company (NYSE:OSK) and a single brand leader in the towing and recovery business, will exhibit the all-new JD10XLP Carrier at the 2019 Florida Tow Show taking place April 11-14 in Orlando, Florida. Steering in a new enthusiastic era for Jerr-Dan, the JD10XLP reflects the company's years of accumulated engineering innovation and industry experience.

"We are excited to introduce a new carrier for the towing and recovery industry, showcasing productivity, versatility and durability," said Mike VanAken, Jerr-Dan director of product management and marketing. "This innovation is only possible because of our company's experienced team of employees with more than 1,000 years of combined towing industry experience across all departments."

Some of the JD10XLP Carrier's standard features include the following: a dual operating box located on each side of the carrier, allowing operators to effectively identify functions and operate the carrier; all steel deluxe headboard with integrated 24" long grab handles and chain racks; hardwood decking made with Apitong wood available in 24 ft., 26 ft. and 28 ft. length; anti-skid yellow paint treatment; full function wireless remote control, LED lighting and a deckmounted 3-step fold-out ladder.

VanAken added, "Unlike the competition, these are standard features instead of options that require add-on pricing. Jerr-Dan has made the decision to include these key features on the JD10XLP to ensure that our customers are getting the full spectrum of our engineering innovations. In turn, end users get a truck that is ready to tackle work on day one."

In addition, the JD10XLP Carrier features a lower deck height to reduce overall height clearance. The carrier also comes standard with Jerr-Dan's exclusive No-LubeTM technology, and the company's new, one-year (full) and five-year (structural) warranty. The JD10XLP

Carrier has straightforward service and maintenance requirements, making it an attractive addition to any towing equipment fleet.

Other products that will be on display at the Jerr-Dan booth are wreckers and carriers known for their smart design, performance and durability. These include:

- Heavy-Duty JFB wreckers Jerr-Dan Fire Body (JFB) Series 25 Ton, 35 Ton and 50 Ton.
- Standard-Duty Wrecker MLP40 featuring a large variety of towing and recovery factory attachments and accessories.
- 22' XLP Steel Carrier with the Side Recovery System (SRS)
- 21' XLP Steel Carrier with the Side Recovery System (SRS)
- 28' JD10XLP
- Multiple 50/60 Ton Rotators

Jerr-Dan opens the Florida Tow Show on Thursday evening hosting the kick-off party at 7:00 p.m. at the Jerr-Dan booth with product demonstrations, food and beverages. In addition, Jerr-Dan's Heavy-Duty Senior Sales Manager, Shane Coleman, along with other Jerr-Dan product experts, will be offering product presentations and demonstrations on Friday and Saturday at the Jerr-Dan booth.

"Once again, we are excited to exhibit our full line of innovative products and equipment at one of the most anticipated shows of the year," said Jeff Irr, senior director of sales and marketing for Jerr-Dan. "With more than 1,000 years of industry experience under our belts, our team's unrivalled experience is our distinct characteristic that we continue to build upon as we develop the innovations of tomorrow."
