JERR-DAN INTRODUCES AN INTERACTIVE TOW PERFORMANCE CALCULATOR

Helpful new tool takes the guesswork out of the vehicle build process.

Hagerstown, MD (January 26, 2016)— Jerr-Dan Corporation, an Oshkosh Corporation Company (NYSE:OSK), introduces the Tow Performance Calculator. Located on the [Jerr-Dan website](#), the Tow Performance Calculator is designed to help tow professionals optimize their vehicles to meet the specific performance and application demands of their business.

This innovative tool guides tow professionals through a series of vehicle-specific questions, including axle configuration and weight, wheelbase length, and overhang length to determine if the tow truck configuration will perform with the application casualty in-tow. By defining the optimum specifications of each tow vehicle, customers are able to maximize their purchase investment by ensuring their unit is designed to go the distance.

“We take great pride in our customer-first engineering,” said Shane Coleman, Jerr-Dan Heavy Duty Product Manager. “The Jerr-Dan Tow Performance Calculator takes the guesswork out of the vehicle build process and allows our customers to strike that perfect balance between price and performance.”

For more information on the Tow Performance Calculator, visit jerrdan.com/tow-performance-calculator.

Forward-Looking Statements

This press release contains statements that the Company believes to be “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including, without limitation, statements regarding our future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations, are forward-looking statements. When used in this Proxy Statement, words such as “may,” “will,” “expect,” “intend,” “estimate,” “anticipate,” “believe,” “should,” “project” or “plan” or the negative thereof or variations thereon or similar terminology are generally intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond our control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements.
